BLANKET STATEMENTS FOR TRAVEL MANAGEMENT.

- In areas along designated motor vehicle routes where general dispersed camping with motor vehicles is not allowed, a small number of designated dispersed campsites have been marked on-the-ground. In these designated dispersed camp sites, the access road to the site and the site itself are only open to motor vehicles during the same season of use indicated for the adjacent road or trail.
- There are numerous short designated motor vehicle routes around the forest that are sometimes too small to display. These routes are signed on the ground with route numbers. If they are too small to display on the MVUM, they are not referenced on the route table. The seasonal restriction for the short spurs are the same as its adjacent primary access route.
- On the Gallatin National Forest, designated motorized TRAIL.S open to wheeled vehicles less than 50" in width, are ONLY open to ATVs and MOTORCYCLES that meet the following criteria:
 - ATVs are defined as: A type of off-highway vehicle that travels on three or more low pressure TIRES; has handle-bar steering, and IS INCHES OR LESS in width, and has a seat designed to be straddled by the operator. Off highway vehicles with "side by side" seating are ONLY allowed on designated Forest roads if they are street legal as defined by Montana State Law.
 - Motorcycles are defined as: a motorized vehicle, 50 inches or less in width, with two wheels in-line with the direction of travel.

PURPOSE AND CONTENTS OF THIS MAP

The designations shown on this motor vehicle use map (MVUM) were made by the responsible official pursuant to 36 CFR 212.51, are effective as of the date on the front cover of this MVUM, and will remain in effect until superseded by next year's MVUM.

May C. Eichen
Forest Supervisor, Gallatin National Forest

It is the responsibility of the user to acquire the current MVUM. This MVUM shows the National Forest System roads, trails and areas on National Forest System lands in the Bozeman, Yellowstone and Gardiner Ranger Districts that are designated for motor vehicle use pursuant to 36 CFR 212.51. This MVUM also identifies the vehicle classes allowed on each route and in each area, and any seasonal restrictions that apply on those routes and in those areas.

Designation of a road, trail, or area for motor vehicle use by a particular class of vehicle under 36 CFR 212.51 should not be interpreted as encouraging or inviting use, or implying that the road, trail, or area is passable, actively maintained, or safe for travel. Motor vehicle designations include parking along designated routes and at facilities associated with designated routes when it is safe to do so and when not causing damage to National Forest System resources. Seasonal weather conditions and natural events may render designated roads and trails impassable for extended periods. Designated areas may contain dangerous or impassable terrain. Many designated roads and trails may be passable only by high-clearance vehicles or four-wheel drive vehicles. Maintenance of designated roads and trails will depend on available resources, and many may receive little maintenance.

This motor vehicle use map identifies those roads, trails, and areas designated for the motor vehicle use under 36 CFR 212.51 for the purpose of enforcing the prohibition at 36 CFR 261.13. This is a limited purpose. The other public roads are shown for information and navigation purposes only and are not subject to designation under the Forest Service travel management regulation.

These designations apply only to National Forest System roads, National Forest System trails, and areas on National Forest System lands.

PROHIBITIONS

It is prohibited to possess or operate a motor vehicle on National Forest System lands on the GALLATIN NATIONAL FOREST other than in accordance with these designations (CFR 261.13).

Violations of 36 CFR 261.13 are subject to a fine of up to \$5,000 or imprisonment for up to 6 months or both (U.S.C. 3571(e)). This prohibition applies regardless of the presence or absence of signs.

This map does not display nonmotorized uses, over-snow uses, or other facilities and attractions on the GALLATIN NATIONAL FOREST. Obtain a forest visitor map for more complete information.

Designated roads, trails and areas may also be subject to temporary, emergency closures, and visitors must comply with signs notifying them of such restrictions. A national forest may issue an order to close a road, trail or area on a temporary basis to protect the life, health, or safety of forest visitors or the natural or cultural resources in these areas. Such a temporary and/or emergency closures are consistent with the Travel Management Rule (36 CFR 212.52(b)), 36 CFR 261 subpart B).

The designation "road or trail open to all motor vehicles" does not supersede vehicle size or weight limits imposed through State traffic law.

EXPLANATION OF LEGEND ITEMS

Roads Open to Highway Legal Vehicles Only:

These roads are open only to motor vehicles licensed under State law for general operation on all public roads within the State.

Roads Open to All Vehicles:

These roads are open to all motor vehicles, including smaller off highway vehicles that may not be licensed for highway use (but not to oversize or overweight vehicles under State traffic law).

Trails Open to Motorcycles Only:

These trails are open only to motorcycles. Sidecars are not permitted.

Trails Open to Wheeled Vehicles 50 inches or Less in Width

These trails are open only to wheeled, motor vehicles less than 50 inches in width at the widest point on the vehicle.

Seasonal Designation:

This symbol, used in conjunction with one of the other road or trail symbols, indicates that the road or trail is open only during certain portions of the year. Refer to the Seasonal and Special Designation Table for further instructions.

Dispersed Camping:

This symbol is used along with a designated road or trail to indicate that limited cross-country motor vehicle use is allowed within 300 feet of that route, solely for the purpose of dispersed camping.

Motorized Trail Access:

This symbol indicates a trail head for access to a motorized route. Not all motorized routes have trail heads and those that do may range from primitive to developed.
